

100 Series Courses

Fit for the Curious Beginner

F.I.T. 102 Overview Course

4-Hour Course

This class will cover a high-level overview of the basic tenets of the Facial Identification Discipline. You will have the opportunity to “test” your skills with a couple of comparisons as well as interact with a skilled instructor to answer questions during the class.

F.I.T. 103 Introductory Course

16-Hour Course

Created to the minimum standard for training requirements for use of a Facial Recognition system. Topics covered at a high level will include history, science & anatomy, morphological features of the face, and comparison methodologies.

200 Series Courses

Fit for the Professional Examiner

F.I.T. 201 Foundational

24-Hour Course

This course will provide the participant with a system-agnostic foundation to Facial Examination. Participants will have the opportunity to conduct comparisons; learn key definitions, the stability of facial features, and contributions to facial uniqueness. The course will also discuss challenges within the discipline and agencies/organizations that are influencing the discipline are discussed.

F.I.T. 202 Facial Examination Course

5-or-10 Day Course

Created for a small student to instructor ratio (12:1), this course provides the necessary skills and strategies to conduct extensive comparison exercises, with feedback from the instructor, as well as full class reviews of comparisons. This course is perfect for Federal, State, local government, or commercial organizations that have facial recognition systems and who are performing facial comparisons.

300 Series Courses *

Fit for Those Needing a Refresher

The 16-hour refresher courses provide updates on current standards/guidelines and comparison exercises relevant to the course topic.

▲ F.I.T. 301
